# Search Tools

Use a variety of dynamic search tools to quickly locate video segments, images, encyclopedia articles, audio files, quizzes, events, lesson plans, animations, clip art and much more.

## Keyword Search

Conduct targeted searches for full videos, video segments, images, articles, speeches, clip art, songs, and sound effects. Search results will return video titles and descriptions that contain the keyword you entered. The power of Boolean Query allows you to include and exclude words or phrases—for example: revolution NOT industrial. Use quotation marks to search for a phrase—for example: “black holes”—to constrain your search to media that includes the entire phrase in the title or description.

## Advanced Search

Use this option to focus on a **specific media publisher** or limit your search to include only Editable, Closed Captioning, Languages or New Titles. You can also choose to include or exclude Local Content in your search results.

## Subject Search

Click on one of seven core subject areas to view a complete listing of media resources that match the subjects that you teach. Refine your subject search by choosing a more specific subject or grade range.

## Grade Search

Select a grade range to view a complete listing of StreamlineSC content appropriate for your students. Filter your search results more precisely and choose from seven different core subjects or sort by nine different media types.

## Curriculum Standards

Videos have been cross-referenced to teaching standards for all states. Use this tool to quickly locate videos that match your state curriculum standards.
